Hi Laura and Karissa,

As you know, Mark had a meeting with MEE last month in Beijing to go over our cooperation and the workplans. I had missed an end-of-August e-mail where they had requested a revision to the 1.3 language on risk assessments that I know is a sticking point for you. Do you have any thoughts on ways to finesse this or an explanation I could share with them on why we want/need to keep the "related activities." I think you've explained it to me in the past, but I need it explained again. Thanks!

This looks pretty good from our side – we just need to check on the “guidance” idea. Give us a day or so.

Thanks,
Karissa

Hi all,

We received comments back on Friday from our Annex 3 draft. They were sent only to me on the U.S. side.

We have made good progress and are getting close. They accepted most of our suggestions including the overall theme of mutual learning. Action items:

Dear Josh,

Your email has been well received.

Since there have been some changes in Ms. Ling's work responsibilities, I am replying to you on our behalf. The contact information has been updated in Annex 3. Please send your email to Mr. QIN Zhaosen (qin.zhaosen@mepfeco.org.cn) and also copy to Mr. DU Kexiong (du.kexiong@mep.gov.cn).

Please find below our further comments on your draft work plan of Annex 3 that was sent to us on May 22, 2018.

Firstly, we are willing to share our work progress on chemical management and mercury management. Meanwhile, we would also like to learn more experience such as chemical risk assessment, GLP management, mercury management and other relevant areas from your side.

Ex. 5 Deliberative Process (DP)

If you have any further comments on this issue, please let us know.

Best regards,

QIN Zhaosen

主 题:RE: Re:转发: Draft Annex 3 Workplan Proposal and Summary

Dear Ling and colleagues,

If it is possible, could you please send us your thoughts on his updated draft later this week? We had been working towards refining and finalizing workplans by the end of May. We would like to get as close as possible to finalizing the Annex 3 workplan language along with the other Annex workplans. Please let us know if you have any questions.

Thank you!

-Josh

Dear Ling and MEP colleagues,

Thank you so much for your earlier comments on the draft Annex 3 Workplan. EPA has reviewed and commented on these and present our updated version of the document for your consideration. We look forward to your response. A few additional notes in conjunction with the comments:

Ex. 5 Deliberative Process (DP)

Again, we look forward to your comments. Please let me and Annex co-lead Laura Nazef know if you have any questions.

Sincerely,

-Josh

主题: Draft Annex 3 Workplan Proposal and Summary

日期: 2018/04/10 04:53:31 (Tue)

<-->

Dear MEE Colleagues:

EPA is pleased to share these draft Annex 3 documents with you as we prepare for the JCEC. A draft Work Plan and draft Summary document are attached for your consideration. These are built off of our ongoing work, our discussions over the last several months about potential cooperation, and consideration of both EPA and MEE priorities.

This reaches you shortly before Office of Regional and Bilateral Affairs Director Mark Kasman's visit to discuss the JCEC including annexes as time allows. Mark will be available to discuss the workplans to the extent that you have time to initially review these documents before his visit. We also look forward to exchanging comments over e-mail to develop and finalize the Work Plan with you.

Sincerely,

-Josh
